REPLACEMENT ELECTRIC MOTORS FROM GOODWINCH Including Bowmotors '1' & '2'

Why not treat your winch to a new motor, either the same or similar, or one with a greater power output. We also suggest that you replace the solenoids at the same time which are probably tired as well. Again, you have a choice between the standard EP/TDS sealed solenoids and the Albright special heavy duty protected solenoids. The fitting of more powerful motors may require the use of a larger diameter wire rope or even better, use the much safer and lighter Dyneema® Bowrope.

MAKE	VOLTS	SIZE	SPEED RPM	HP	NO Load Amps	Winch	Our Price
ISKRA	12	Short Series 150x112mm	4000	4.2	65	Standard X9	£155
ISKRA	12	Long Series 179x112mm	2800	4.2	47	X9 Plus, G10, Husky, All Warn and Ramsey	£155
ISKRA	24	Long Series 179x112mm	2800	4.6	24	X9 Plus, G10, Husky, All Warn and Ramsey	£175
BOWMOTOR 1	12	Long Series 175x112mm	4000	5.6	44	TDS, EP, X9 Plus, X9 Special Edition, G10, G12, Warn and Ramsey	£155
BOWMOTOR 1	24	Long Series 175x112mm	4000	5.6	23	TDS, EP, X9 Plus, X9 Special Edition, G10, G12, Warn and Ramsey	£155
BOWMOTOR 2	12	Extra Long 196x112mm	5000	6.8	55	TDS (where space allows), Warn 8274 & Giggiepin twin motored winches	£195

Bowmotors are available in both 4,000 & 5000 rpm. They feature heavy duty copper armature windings, which are copper welded to the commutator, with highly efficient ball bearings at each end. Four enormous long lasting brushes enable the motor to run cooler.
