

Challenge Products from Goodwinch

David Bowyer, Managing Director, brings you the very best of quality, reliable, innovative products from his Company for your winching enjoyment both in the winch challenge field and for the professional at work.

First and foremost, David recommends his well-respected **TDS GOLDFISH waterproof winches**, totally reliable, and now recognised to be the finest low profile winches with the greatest number of features in the World.

So, if you are looking for a new winch for either the front, back or centre of your Challenge truck, front of your normal green lane 4x4 or working 4x4 vehicle, look no further. You will be pleased to take David's recommendations.

TDS-GOLDFISH winches are available in two ratios: 173:1 for Off Road use and 254:1 for commercial use. Both come with a variety of upgrades to suit your requirements and pocket.
