

Introducing the lightweight

LongBow

Ground Anchor

NEW

The ideal competition and general purpose ground anchor for all winching scenarios where there is a distinct lack of trees!

Constructed from high strength Domex steel for the blade and Cold Drawn Seamless steel for the main boom giving it very good strength but still weighing in at only 8 kgs.

The LongBow Ground Anchor is a 'must have' and essential winching accessory.

- Easy and quick to set
- Double Point 'root' cutter blade
- Corrosion resistant coating
- Probably the lightest on the market at just 8kgs
- Easy to pull out backwards
- Easy to carry with one hand
- Mounts easily with QuickFists*
- High strength 'Domex' steel blade
